

GARRAN

SMART SECURE STORAGE SOLUTIONS

THE PERFECT SMART LOCKER SOLUTION FOR YOUR VISITORS

If you are welcoming visitors, you will know that the security of personal items for your visitors is very important, and lockers are the obvious choice for keeping their items secure.

Choose your own Design Style, and Increase your Visitor Experience

With the branded locker rental smart locking solutions from Garran, your visitors can rent a locker on the spot or reserve and pay for one beforehand. No hassle with padlocks or combination locks.

Mobile first!

At Garran we say Mobile First! so visitors only require an email address and instantly opening and closing the locker is done easily via your own locker website and the visitor's smartphone.

Increase profits

Generate incremental revenue with the most versatile and flexible locker system that fits your venue and guest demographics.

INCREASE GUEST SATISFACTION AND VENUE REVENUE

Enhance your visitor experience

Safe and easy to operate so your visitors can securely store their belongings while they enjoy what you have to offer.

Rent or reserve

You determine whether visitors can rent a locker on the spot, can only reserve them beforehand, or to have both options available.

Operation via internet

Visitors don't have to download or install anything: they can simply operate their locker via your own white label locker website. Your guests only need an email address and a phone with an internet connection to be able to rent and operate their locker.

Intelligent payment system

Visitors can rent and pay for a locker on the spot but can also reserve and pay for a locker beforehand.

Central locker management

Management is easy with the Online system. The central locker management dashboard, where your administrators can simply log in via the browser on their PC or laptop. In case of emergency, they can open individual lockers with the smartphone facility app.

You determine the rules

Would you like to automatically release the lockers after a certain period of time or will a visitor be able to release or extend the rental of a locker? The software allows you to set the price which may vary depending on locker size and rental duration.

JUST 3 EASY STEPS TO BOOK A LOCKER

Step 1

Scan the QR code with your smart phone and continue via your web browser.

Step 2

Fill in your email address, select the time window you would like to use the locker and select a locker size.

Step 3

Pay for your locker.

Enjoy your locker!

You can now open your locker as many times as you want, either through your browser or your email.

You can even share your locker with others with the 'SHARE' button.

Garran Online

The perfect innovative solution for processing one-time and/or large numbers locker users at once.

Use the Garran Portal to quickly set up your own dedicated, user friendly locker website with your own logo, prices and business rules.

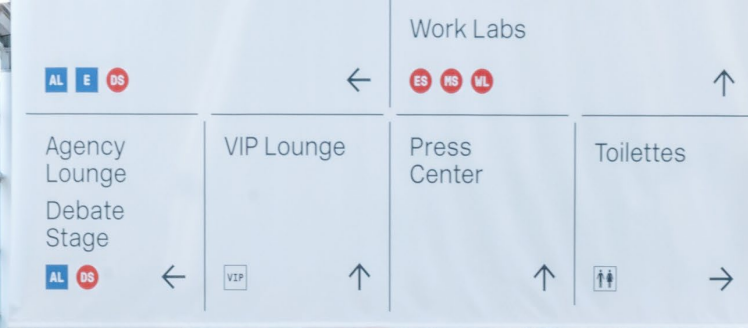

Users just need to scan the QR-code and they are ready to pay for and start using their locker.

3rd party software integration

The software supports various API's to integrate with your existing applications and payment systems.

Topdesk, iProtect (keyprocessor), Siemens Siport, AEOS, Azure Active Directory, Paxton, Loxis and Receptlocatie.

We also offer tailored integrations.

Intelligent Software

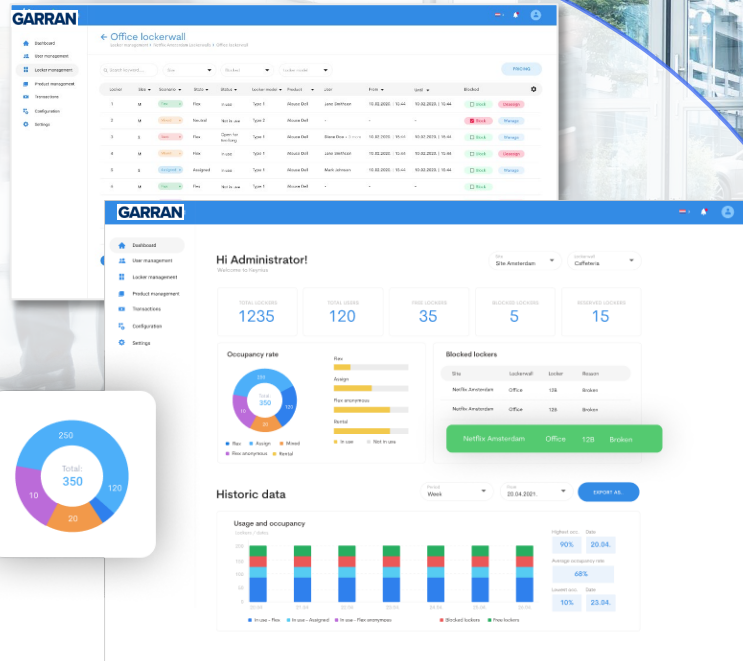

State-of-the-art software to make your locker walls smart. Enabling users and administrators to use lockers in a modern and smart way.

Unlock a thousand possibilities

The software is an innovative cloud solution that is highly reliable, secure and customizable.

A solution that is truly plug & play and easy to manage and use. A solution that unlocks a thousand possibilities to make use of a locker wall for storage, product rental, vending and dispense and many more.

Making a locker wall *smart* also includes that it should be fully automated, can be used from multiple platforms and provides you with valuable insight data.

How to get an ROI out of your lockers?

Unlock ROI with smart lockers

How to get an ROI out of your lockers is your first concern in the event sector – especially after the difficult Covid restrictions and lockdowns.

What's the ROI?

That's what you really want to know. Well, the ROI from smart lockers comes from improved overall efficiency and enhanced workflow. You can also save by eliminating employee time dedicated to certain tasks.

On top of that, you can start generating additional revenue by renting out lockers to visitors. In the software you can set the price which may vary depending on locker size and length of time renting out the locker.

Improve the Overall Experience

With the Garran Smart Locker solution, you will provide a more positive overall experience. Your visitors are saved from worry about leaving their belongings unprotected as they go about their day and your staff spend very little time on locker management.
