

# GARRAN LOCKERS

## Datasheet | Premier Range

Our Premier Range offers a highly durable storage solution for the storage of items in dry environments across all industries. These combine extremely robust solid grade laminate doors with the strength of a spot welded carcass. Multiple door colour & lock options provide an additional level of customisation.

### Specification

- ❖ 0.7mm thick mild steel carcass
- ❖ Spot-welded design
- ❖ 10mm thick solid grade laminate (SGL) doors
- ❖ Available with an integral sloping top
- ❖ Unique one-piece base system includes 'skid rails' to slightly raise base of locker off the floor
- ❖ Bottom SGL door terminates 30mm from base of locker to allow opening over various floor finishes
- ❖ Locker doors either fitted with lock enclosure (depending on choice of lock) or routed to accept Garran Lockers number plate
- ❖ All doors secured to carcass with bolt through hinges

### Dimensions

All lockers 1800mm high as standard (flat-top)

#### Single – Six Tier

- ❖ Width increasing in 75mm increments from 300mm up to 450mm
- ❖ Depth increasing in 75mm increments from 300mm up to 600mm

### Standard Internal Fittings

#### Single Tier Lockers

- ❖ One hat shelf, one coat rail & one fixed coat hook

#### Two Tier

- ❖ Two rear fixed coat hooks per compartment.

### Carcass Finish

The locker carcass can be finished in any of our PPC colours

### Door Colour Options
