

# GARRAN LOCKERS

## Datasheet | Z Lockers

Garran Lockers are able to offer Z Lockers from our Classic, Premier & Supreme ranges. Each offers a different level of specification to suit your particular project requirements.

### Specification – Classic Range (Pictured)

0.7mm mild steel carcass & doors | Spot-welded design | Locker doors fitted with rear vertical stiffener for added strength | Available with an integral sloping top (a 1 in 3 slope)

### Specification – Premier Range

0.7mm thick mild steel carcass | Spot-welded carcass | 10mm thick solid grade laminate (SGL) doors | Available with an integral sloping top | Locker doors either fitted with lock enclosure (depending on choice of lock) or routed to accept Garran Lockers number plate | All doors secured to carcass with bolt through hinges

### Specification – Supreme Range (Wet Area)

1.5mm thick one-piece aluminium carcass | Spot-welded carcass | 10mm thick solid grade laminate (SGL) doors | Available with an integral sloping top | Locker doors either fitted with lock enclosure (depending on choice of lock) or routed to accept Garran Lockers number plate | All doors secured to carcass with bolt through hinges

### Dimensions – Classic & Premier Range

All lockers 1800mm high as standard (flat-top)

- ❖ Width increasing in 75mm increments from 375mm up to 525mm
- ❖ Depth increasing in 75mm increments from 375mm up to 525mm

### Dimensions – Supreme Range

All lockers 1800mm high as standard (flat-top)

- ❖ Width & depth either 375mm or 450mm

### Standard Internal Fittings – All Ranges

- ❖ Two fixed shelves & two fixed coat hooks
