- Businesses can offer as an employee benefit
- Access - 24 / 7 Live Management System
- Security alerts
- Easily manage multiple sites from any location in the World - Cloud base software benefits
- Residential benefits - can be collected easily and quickly

COMPANY STANDARDS & MEMBERSHIPS

SOFTWARE SYSTEM

BENEFITS

- **Cost Effective**
- **Time Efficient** - fully automated, remote access
- **System Scalability** - any number of lockers can easily be managed in a centralized way. The locker quantity doesn't affect the management efforts, and the system is fully scalable.
- **Remote Access Management** - access to electronic lockers are issued with a few mouse clicks. Access duration periods are set and revoked automatically; there is no labour involved.
- **Overview & Analytics** - a Real-time digital dashboard gives an instant overview of every aspect of locker usage, as well as access to past usage statistics.
- **Parcel Service** - the MyLocker app is used instead of cards to even further reduce operational costs.
- **Handling Emergency** - secure centralised emergency opening procedure built-in from the factory. Dedicated facility managers can issue this opening command at a moments notice.

KIT INCLUDES

- 10.1 inch fitted touch terminal - tablet
- Controller unit
- Router board
- 4G LTE USB modem
(service provider depends on location)

ACCESS METHODS

- PIN code
- Web UI - Cloud based
- RFID
- Smartphone App - available to download on Apple App store and Android market (iOS + Android)

ASSET SERVICE
