

PROJECT

DVLA

We are exceptionally proud to have won the @Driver and Vehicle Licensing Agency (DVLA) Protective Sneeze Screen Tender.

We manufactured and supplied thousands of Sneeze Guards, providing a series of standard and bespoke designs. Helping to creating a safe, streamline workspace, for staff to work in an environment where they have the protection they need.

Working closely with the DVLA we co-ordinated phased, out-of-hours installations across 3 sites, which included the prominent 16 storey Government building in Swansea Vale, thank you for your help and professionalism @Johnstons1871

Another successful GARRAN Project - screens all round!
