

PROJECT

RAF Lakenheath

Absolute pleasure to work with Kevin Bales and the team @ Henry Brothers on this project for RAF Lakenheath.

This project utilised our trusted processes; site survey, budgeting and space planning. The customer was looking for a robust, reliable solution - so we tendered the Titan and the deal was clinched.

Installation was successful over three days and progressed without a hitch.
Richard Manning : Site manager said;

“Our team were polite and professional and he would have no problems working with them again.”

Well done to everyone involved & to our James!
